#### **About Kathy.....**

Kathy has been in love with dogs for a lifetime – especially her dalmations! She began in the show ring in the mid-1970's but did not do well until she found the right breeder and the right instructors who were knowledgeable and trustworthy. They taught her how to compete in the show ring against professional handlers. They answered all her questions and guided her. This is what she passes on to you, her students....her love of dogs, her show experiences (both as a judge and exhibitor) and her knowledge of the show ring.
